PROJECT

New marketing website for Dines Installations — a single-page site showcasing solar PV, battery, EV and electrical work, with optional self-serve content management and ongoing care.

A new website, *quoted simply.*

A finished site, plus the option of a quiet life keeping it running.

PRICING

ITEM	TYPE	PRICE
Website build Complete marketing site, four sections (Home, About, Services, Contact). Mobile-responsive, optimised for speed and search. Pexels-licensed imagery. Source code zipped and emailed to you on commissioning.	One-off	**£400.00**
CMS add-on (optional) A self-serve admin where you can edit copy, swap images, manage testimonials and add new project case studies without a developer. Includes 30 minutes of training and a written quick-start guide.	One-off	**£195.00**
Annual hosting & care Site hosted on Vercel's global edge network. SSL certificate, .co.uk domain renewal, monthly security/dependency updates, off-site Git backup. 99.9% uptime target.	Per year	**£180.00** renews annually
Content edits Copy changes, image swaps, adding/removing testimonials or service lines, contact-detail updates — anything up to 30 minutes of work. Completed within 5 working days.	Per edit	**£50.00** as required
Day-one cost — build + first year hosting		**£580.00**

ITEM	TYPE	PRICE
Add the CMS for £195 if you'd like to edit the site yourself. Edits at £50 each on demand.		

The site itself is **yours, in full**, the moment you pay. The annual fee is for the service of running it — not a licence to use it.

BETA ALTERNATIVE PAYMENT

Pay with Bia Electric Credits.

Settle your invoice through the Bia Electric Credits programme and the full invoice value is credited back to you as **Bia Credit**, redeemable any time on any Bia Group website or service.

Pay **£580** today — receive the website **and** **£580 in Bia Credit** to spend across the group on future work, partner sites or services.

Beta programme. Credits are non-refundable, non-transferable for cash, and provided as-is, without warranty, while the redemption mechanism is in active development. Redemption rules may evolve.

WHAT'S INCLUDED IN THE BUILD

- ✓ Four pages: Home, About, Services, Contact — each on its own tab, switching instantly without a reload.
- ✓ Hero gallery showcasing real solar work, animated photo-wall background.
- ✓ Testimonials section with star ratings and aggregate reviews summary.
- ✓ Accreditation cards (NICEIC, MCS, RECC, OZEV) and manufacturer-partner row.
- ✓ Working contact form, click-to-call phone numbers, email links.
- ✓ Mobile-, tablet- and desktop-responsive throughout. Built with TailwindCSS.
- ✓ The full source code, delivered as a ZIP on commissioning — yours to re-host elsewhere any time, no permission required.

Terms & acceptance

Dines Installations

PREPARED FOR

Alan Dines

TERMS

PAYMENT

The site is built. Full payment (£400, plus £180 hosting and the £195 CMS option if taken) is due in full before the site is published. Payment by bank transfer; details on the invoice.

OWNERSHIP

You own the design, code, copy and assets outright. Source code is zipped and emailed on the day payment clears. Re-host elsewhere any time, with no permission required.

HOSTING & UPTIME

Target uptime is **99.9%**, measured against the upstream provider's status page (about 8.7 hours per year of unscheduled downtime allowed). No service credits or refunds for downtime caused by Vercel, your DNS provider, or anything else outside my direct control.

EDITS

£50 per edit, completed within 5 working days. Same-day urgent edits £100. Out-of-scope work (new pages, layout changes, new features) quoted separately at £75/hour, 1-hour minimum.

RENEWAL

Hosting renews annually. Invoice issued 30 days before renewal. 30 days' written notice required to cancel; the site stays live until the end of the paid period.

HANDOVER & EXIT

You already hold the source code, so handover is trivial: I send the deployment configuration and the domain transfer code, and another developer can re-host immediately. No additional handover fee.

CMS SCOPE

The CMS lets you edit existing content — copy, images, testimonials, project case studies. It is not for layout, structural or design changes; those remain quoted as bespoke work.

VALIDITY

This quote is valid for 14 days from the issue date above. After that, please request a fresh quote.

BIA ELECTRIC CREDITS · BETA PROGRAMME

Optional alternative to bank transfer. Settle any invoice through the Bia Electric Credits programme and the full invoice value is returned to your account as **Bia Credit**, redeemable on any Bia Group website or service.

Credits are non-refundable, non-transferable for cash, and have no fixed expiry while the programme remains active. Provided **as-is, without warranty**; redemption rules may change as the system develops. Bia Group reserves the right to amend or wind down the programme with 30 days' notice, in which case any outstanding credit value will be honoured against the originating invoice in cash equivalent.

ACCEPTANCE

To accept this quote, sign and date below and return by email. An invoice will follow with payment details.
